Photos of Natural on The Fin

Date
Fri, 01/12/2024 - 11:05

From email Jan 12: "Natural avalanche on the Fin of Mt. Republic observed this morning.

The timing of it looks to be about 36-48hrs ago.

Looks like it might have started at the new/old snow interface, and then stepped down into deeper layers mid face.

Quite an impressive avalanche!"

Region
Cooke City
Location (from list)
The Fin
