Test Test Observation from GNFAC

Date
Wed, 08/31/2022 - 05:50
Activity
Snowbiking

Temperatures to mid 90s F expected for the next week. We may see the season's first snowfall as early as 3-4 weeks. There is minimal snow remaining at the highest elevations. Avalanche danger seems low.

Photos from August 6, inversion on Clarks Fork and August 16, Mountain Goats on BT Pass (2022).

Region
Lionhead Range
Location (from list)
Beehive Peak
