

Natural slides near Cabin Creek

Cabin Creek

Southern Madison

1/1/2023

Code

R1-D1

Latitude

44.89490

Longitude

-111.22800

Notes

Two natural avalanches in the Cabin Creek area.

From instagram: "Right off the trail at tepee creek just before the cabin. A natural [slide](#) about 2ft crown"

From email: "I came across this older avalanche yesterday when I was guiding a group in the Kirkwood area, it's an area in the Cabin Creek drainage. It looked to be an older natural [slide](#) probably just after the last storm cycle a few days to almost a week ago now. North, North East [Aspect](#). Approximately 39 degree slope (Because of a creek with open water just below the [slide](#), I couldn't get close enough to accurately measure the slope)".
