Whumpfing and small ava in Cooke City

COOKE CITY Cooke City 1/1/2024 Code C-NC Latitude 45.02020 Longitude -109.93800 Notes

Still getting collapsing/ whumphing of the snowpack in isolated areas around Cooke City.

We experienced about 4 good collapses on Monday north of town (with approximate diameters about 25-30').

And noted where a natural <u>cornice</u> fall had triggered a small <u>slab</u> avalanche about 30' wide.
