

Remote triggers - McAtee

Date

Fri, 02/23/2024 - 16:00

Activity

Snowmobiling

North facing aspect above McAtee creek. Triggered one remotely while traversing below, ~150 yards away, and likely triggered the second one from below as well but cannot confirm. 4-6 foot crowns, 50-100 yards wide, ran 75-100 yards

Region

Northern Madison

Location (from list)

Buck Ridge

Observer Name

Matt Rolfson
