

Deep Natural Avalanche in McAtee Basin

McAtee Basin

Northern Madison

3/3/2024

Code

HS-N

Aspect

NE

Latitude

45.17710

Longitude

-111.43500

Notes

From obs: "it looked like the N/NE faces in McAtee that slid just over a week ago had avalanched again, nearly to the ground. There were slightly dirty looking debris piles mid slope and several prominent crowns just below the ridge top but it was hard to make out details through the light snow, even with binoculars."

Number of slides

1
