Skier triggered wet Slide off of The Nose

Bridger Bowl Bridger Range 5/3/2025 Code WL-AS-R2-D1.5 Elevation 7800 Aspect

E

Latitude

45.81560

Longitude

-110.92300

Notes

From obs. "We were above the entrance to Exit Chute and triggered a slough <u>slide</u> that slid down one of the gullies that emptied into PK bowl. It appears to have followed an existing <u>slide</u> path, terminating in the top of what looked to be a significant existing avalanche runout. The <u>slide</u> looks pretty wide but not deep."
